

Dear Premium Portfolio Subscriber,

Mid-March 2015 Update

Our recommendations center on a collection of five stocks that we believe, as a group, will outperform the market this month. **The Buyback Premium Portfolio is beating the S&P 500 by more than 95% since its inception** (August 2, 2000)! This portfolio is up 142% since inception (August 2, 2000) vs. a gain of 46.35% in the S&P 500 over the same time frame. We hope that you are participating in these profits. For the month of February 2015, The Buyback Premium Portfolio gained 2.31% vs. a gain of 5.49% in the S&P 500.

New Premium Portfolio Recommendation: On March 4, we issued a recommendation that there are no changes in the Premium Portfolio this month.

We will continue to hold 5 positions (100% invested). Current positions are: **PIR, SIRI, RNG, G** and **WU**

New subscribers: Buy equal dollar amounts of **PIR, SIRI, RNG, G, WU**. (Buy approximately 20% of the portfolio value for each stock.)
