

Dear Premium Portfolio Subscriber,

Mid-August 2017 Update

Our recommendations center on a collection of five stocks that we believe, as a group, will outperform the market this month. **The Buyback Premium Portfolio is beating the S&P 500 by more than 130% since its inception** (August 2, 2000)! This portfolio is up 202.74% since inception (August 2, 2000) vs. a gain of 71.79% in the S&P 500 over the same time frame. We hope that you are participating in these profits. For the month of July 2017, The Buyback Premium Portfolio gained 1.27% vs. a gain of 1.93% in the S&P 500.

New Premium Portfolio Recommendation: There are no changes to the Premium Portfolio this month.

We will continue to hold 5 positions (100% invested). Current positions are: **SIRI, MBI, ODP, SFUN and BRCD.**

New subscribers: Buy equal dollar amounts of **SIRI, MBI, ODP, SFUN and BRCD.**
(Buy approximately 20% of the portfolio value for each stock.)

**Remember to invest for the future —
it will be here before you know it.**
